EDUCATION

COLUMBIA BUSINESS SCHOOL New York, NY
Master of Business Administration, MBA: Specializing in Marketing, Product and Strategy. 2024 - 2026
Product Management 101 Teaching Assistant, Summer Start-up Track Pitch Competition

PARSONS SCHOOL OF DESIGN, THE NEW SCHOOL New York, NY
Bachelor of Fine Arts, Communication Design: Specializing in UX/UI, User Research and Digital Strategy. 2015 - 2019

EXPERIENCE

JPMORGAN CHASE New York, NY
Embedded Finance Strategy team within J.P. Morgan Payments. June - October 2026
Senior Associate, Go-to-Market Strategy

- Partnered with Product and Engineering on the embedded-payments roadmap, turning institutional client needs into prioritized requirements and the narratives that made technical capability legible to executive partners.

NATIONAL BASKETBALL ASSOCIATION, NBA New York, NY
In-semester internship with the National Basketball Association focused on NBA League Pass product. January - May 2026
Product Manager

- Used qualitative research and subscriber data to define audience segments, then prototyped and tested upgrade and paywall flows — scoped, shippable surfaces projected to lift conversion 3-5pp and cut churn 5-10%.

DELOITTE DIGITAL New York, NY
Global creative digital consultancy within Deloitte. 2021 - 2024
Product Designer — AI Platforms & Consumer Products

- Anthem (GenAI product): Co-developed an AI document-summarization tool and designed its human-review layer — the quality and accuracy checkpoint showing a non-technical reviewer what the model had done, and on what, before she acted; nurse claim-processing time fell 40%.
- FedNow (Federal Reserve): Delivered the modular design system and end-to-end flows for U.S. instant-payments infrastructure — 100+ workflows adopted by 50+ banks, +25% task completion — built as a system rather than one-off screens.
- WNBA: Rebuilt consumer web and mobile around personalized recommendations, lifting CTR 40% and repeat visits 20%; owned interaction, layout, typography, and motion across iOS, Android, and responsive web.
- Ran critiques, mentored junior designers, and set the reusable components and prototyping standards the wider team worked to.

INDĒ WILD New York, NY
Unilever Ventures-backed beauty brand, launched in Sephora. June - September 2025
Go-to-Market Lead

- Designed the creator-commerce experience behind a net-new channel, taking TikTok Shop from zero to $344K in quarterly sales with a 20% lift in conversion.

ERGO, DIGITAL MARKETING AGENCY New York, NY
SaaS platform delivering personalized, data-driven marketing experiences. 2020 - 2021
Experience Designer

- Designed and A/B tested layouts, flows, and targeting for American Express, lifting open rates 25% and engagement 20%.

ADDITIONAL INFORMATION

Design: Interaction and visual design, design systems and tokens, high-fidelity prototyping, low-fidelity exploration, user research and usability testing, accessibility (WCAG). Figma (expert), Adobe Creative Suite. Motion & 3D: Remotion (video in React), Spline, Blender.
AI in the workflow, with measurable impact: get-me-a-job — MIT-licensed agent that redesigns the job-application workflow end to end; others have forked and run it. Kaisey — AI calendar assistant on the OpenAI API with Google Calendar OAuth and a React front end, designed and coded end to end, closed beta with 20 users. Whifff — Next.js AI recommender over a 20K+ item database. Daily practice in prompt and context engineering, agent orchestration, and keeping evaluation logs of where model output drifts from spec.
Front-end: React, TypeScript, Next.js, semantic HTML, modern CSS, Python, SQL. Portfolio: anishasubs.github.io/portfolio/
